

REMARKS

The present application is the U.S. national phase of PCT/JP2004/012660. When this national phase application was filed in the U.S. on March 1, 2006, an English-language translation of the International Application was filed therewith. One word in the English-language translation incorrectly translates the original word in PCT/JP2004/012660. That word is underlined in the enclosed copy of page 15 of the International Application. The correct translation of that word is "methyltriphenoxysilane." The present amendment of the specification corrects this translation error. No new matter is introduced by this Amendment.

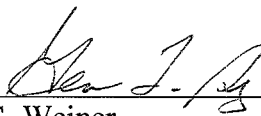

Applicants recognize that the amended paragraph contains an inconsistency, in that methyltriphenoxysilane does not contain an alkoxy group. If the Examiner would like Applicants to re-word the specification to avoid listing methyltriphenoxysilane as an example of a compound having an alkoxy group, Applicants would welcome any suggestions in that regard.

If there are any questions concerning the present application, the Examiner is respectfully requested to contact Richard Gallagher, Registration No 28,781 at the telephone number of the undersigned below.

If any fee is determined to be necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment to our Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. § 1.16 or under § 1.17.

Dated: June 10, 2009

Respectfully submitted,

RC By  #418,501
